

Wed. February 20/18
Witley Camp.
Surrey.
England.

Dear Mother, Dad & Sis.
Received your letter
to-day also encl. from Dad.
and I wish I could give you
bear Hug & Kiss. But never
mind dears we'll take a
whole day off to practice
those hugs some day & I hope
soon. I am glad you rec'd. some
letters from me. won't it be
joke when we won't need
these darn letters But until
then believe me they are the
only thing

I do not expect to be
home some very long now
over where we are going
there are lots of friends
waiting for us, They are

such close friends that they
crawl inside your under
clothing and I hear that
at times you feel like giving
them a punch in the eye.

I am glad they have
persuaded you to take a rest.
if anyone needs a rest you
do and when I go Back Dad's
got to go to bed for three
weeks. But I think if I ever
have a pillow, instead of
a Stet Bag to rest my weary
head upon, I'll never get up.

Well dear my course
is not going to do me much
good after all. But I hear
that in France it's home
the healthiest job & one
for the healthy spots.

Do you remember Stammers
he has been awarded the
Military Medal & old
Jim Barnard walked in on
us to-night just as if he
had never been away.

Well dears there is not
much more I can say.
We are all ready waiting
but when we go is not
decided yet. in the course
of a couple of days.

Remember me to all
Your loving Son & Bro

P.S. I sent two glass
2 sets of ball bearings
etc. Please give
Tommy one lot
