

Sunday November 10/8.

Gen. Sec. Camp.

Dearest Mother Father & Sister

Just a wee wee dear
telling you to get my room
ready as I am surely going to
need it soon. This war is nearly
over and by the way things
are promising I am going to be
among the first lot to go
home. How do you like that.

I do not think very much
of this Camp here but she is
safe as I should worry. I do not
know when we are going or our
leave But I have a hunch that
the cedar situation has a lot to
do with our staying here this may
be a demobilization Camp for
all we know. and believe me dear
I am just about ready to come
home.

We are only a couple of
miles from the ocean here and
although the scenery around here
is very nice it is too cold.
and this room here is like a
Refrigerator.

This is just a note to-day

dear But I am sure feeling good
and hope you are all the same
way.

I would like to wait in
and surprise you to day But
guess we'll have to postpone
that for a few months

Your loving Son & Brother
Bob.

P.S. To Peckell
I am going to see you
next week. I am
Burning Bob
